# FROM THE OLD...

From the time our High School had an enrollment of 200, progression here has been unlimited and unceasing.

Our present building was constructed in the 1920's and at that time was modern both in architecture and equipment.

In 1941, the west wing of the High School, including a number of classrooms, the library, and part of the auditorium was destroyed by fire. With the aid of federal funds, this damage was repaired and the entire high school building modernized. A gymnasium containing ample space for basketball court, home economics rooms and a music room was also constructed.

Now we have outgrown our present school plant and we are ready to begin a new era in our ultra modern building which is almost completed.

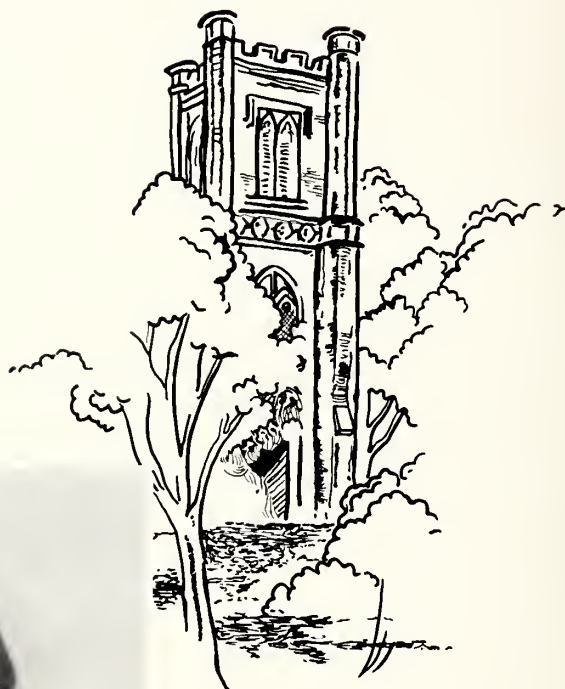

While we have had physical changes at Marion High School, the original spirit of friendship and loyalty which accompanied its founding still exists.

We will try to reveal to you in this yearbook some of these traditions and experiences during our years of progress in order that they will remain in a special part of your memory---as long as memory shall last.

The Marion High School Rippers had their best season in recent years in 1954. With a record of 6 wins and 4 losses in conference play, the Rippers finished third in the Northern Division of the Western Conference, and but for a few bad breaks would have held a higher place.

Coaches Ditt and Broome did an excellent job with the team and we wish to commend them for their service and leadership.
